

## Free check of transport chain samples and recommendation for an optimum lubrication

Dear Madam, dear Sir,

We offer the service of a free check of your chain samples.

Please send us for this purpose a sample of the transport chain of your Brückner line (**please take at least 4 chain links from each side of the chain**). We will check it regarding the general condition and the lubrication status and we will give you a recommendation for an optimum functionality of your chain.

Please send the chain sample together with this letter to the below indicated address. Thank you very much for your efforts!
